RECOMMENDED BY	:	
COMMENT/ SIGNATURE BY PCT	:	

MALAYSIA PRODUCTIVITY CORPORATION (MPC)
PROPOSAL FOR BOARD OF MANAGEMENT

AGROLINK MALAYSIA LAB SERIES

1.0 Purpose

The purpose of this paper is to inform and seek approval from Board of Management (BOM) to organized Agrolink Malaysia Lab Series with the total estimated cost of RM13,000.00 using the MPB-AFPN budget.

2.0 Background

To reduce the gap within the agro-food value chain, there is a need for better compilation and dissemination of information within the subsector. Thus one of the initiative under the Agro-Food Productivity Nexus (AFPN) aims to address this information asymmetry by establishing Agrolink Information Toolbox (Agrolink Malaysia) which gives us a knowledge-sharing platform to help agriculture businesses to access information and provide assistance in term of productivity development and building connectivity within the Agro-food value chain. Through Agrolink Malaysia, gaps within the value chain can also be identified and subsequently, players can be enabled and supported to move into 'white spaces' within the value chain. It also enables users to develop interactive linkage among their institutional or commercial fraternities. The soft launched for the Agrolink Malaysia was held on 29 August 2020 and a series of roadshow was organised to get the feedback from the industry players as well as the government representatives. Thus, to continue the activities related to Agrolink Malaysia for the year 2021, AFPN will be organizing lab series to evaluate and scrutinize its current development.

3.0 Objective

- i. To evaluate and scrutinize the current development of the Agrolink Malaysia portal;
and
- ii. To develop way forward plan for Agrolink Malaysia.

4.0 Proposed date

The proposed date are as follows:

- | | |
