**PAPER FOR BOARD OF MANAGEMENT APPROVAL  
WORKSHOPS ON INNOVATIVE IMPLEMENTATION WORKPLAN OF DIGITAL  
PRODUCTIVITY NEXUS (DPN) FOR Q1 2021**

**1.0 Purpose**

The purpose of this paper is to seek the approval of MPC's Board of Management (BOM) to utilise the Digital Productivity Nexus budget for the implementation of first quarter 2021 programs and activities with the total of RM 19,900.00.

**2.0 Background**

- a) Malaysia Productivity Blueprint (MPB) was launched in May 2017 detailing the holistic measures to boost productivity at the national, sectoral, and enterprise level via strategic thrusts and initiatives. In ensuring and expediting all-inclusive and systematic changes, **digitalisation** and innovation have been identified as among the key thrusts which guides the implementation and execution of planned initiatives. Nine nexus comprises of 3 main economic sectors has been established as a one-stop platform which support, assist, and guide businesses to increase productivity level, increase innovation, and capture growth opportunities.
- b) Thus, the Digital Productivity Nexus (DPN) takes up the role to drive sector-level initiatives by creating awareness, improving understanding and facilitating the adoption of the sector-level initiatives. This is to empower businesses by developing and disseminating digital tools to boost productivity and foster knowledge-sharing through productivity experts who can help businesses to identify their productivity challenges and share best practices and solutions.
- c) DPN has came out with the theme of **Go B.I.G with Digital** which is aimed to call upon all leaders (businesses, public and private sectors) to embrace a mindset change towards new breakthrough performance with digital adoption to boost breakthrough **productivity**. Leaders have to take charge, take risk, take pride in the digital direction of the respective organisation. Digitalisation is a prominent platform to boost productivity growth and economic competitiveness in a country's long-term growth. High-productivity nations adapt quickly to changes by technology advancement. The desired impact from digitalisation involve the

willingness to acculturate new ways of delivering goods and services, resulting in new and innovative ways of operating businesses.

- d) In addition of the Go B.I.G with Digital video which was launched in 2020, a innovative implementaion structured working plan for DPN's programmes and activities in 2021 need to be executed this year. The Champion of DPN, Dato' Wei Chuan Beng is also a Member of the National Digital Economy and 4IR Council (MDE4IR) looking forward to ensure that the programmes and activities on digitalisation planned is realized and will boost breakthrough productivity of the industries.
- e) In order to develop an innovative and structured implementation working plan for DPN's programmes and activities in 2020, engagement with stakeholders and a 2-days workshop on executive strategic session (ESS) will be organised in January 2020 with public and industry players. The ESS also will discuss a broad planning for DPN involvement in the MDE4IR. Subsequently, the outcome from the ESS will be shared to the Nexus Governing Committee (NGC) in February 2021.

### 3.0 Objectives of the workshops

- a) To strategise and develop DPN's an innovative and structured implementation work plan/projects for 2021;
- b) To develop **Go B.I.G with Digital Framework** in order to uplift the productivity across nexus in line with MPB and MDE4IR aims;
- c) To ensure the **Go B.I.G with Digital to Uplift Productivity** initiatives and activities progress are kept in track and continuing, refer Appendix 2;
- d) To update on the current initiatives and activities; and improvise the implementation;
- e) To gather ideas, feedbacks and opinions from main stakeholders; MPC management and NGC pertaining to DPN's initiatives.

### 4.0 Output

- a) DPN's innovative and structured implementation workplan/projects for 2021; and
- b) A Go B.I.G with Digital Framework across nexus in line with MPB and DEB4IR objectives;
